At the end of this Guide, is given a contact address for both the Architects Registration Board of Ireland and the Building Control Authority of Ireland. British Standard BS EN ISO 2009:2007: D16.2010 is a new international standard for building services. The new standard replaces BS EN ISO 3100:2001 and BS EN 12562. It establishes minimum requirements for indoor air quality (IAQ) in buildings. It is available as a book format (BS EN ISO 2009:2007 D16.2010) or in an easy-to-use PDF version (BS EN ISO 2009:2007 D16.2010 PDF). It is also available free online at. The EN standards were developed in conjunction with CIBSE (The Chartered Institute of Building Services Engineers) and it is CIBSE's view that the standards should be available free online. BS EN ISO 2009:2007: D16.2010 Building services. The table below lists the non-binding health and safety requirements for the installation and commissioning of building services in non-domestic buildings. In this table: "BS EN ISO" means "Building Services Environmental requirements in [a] Non-Domestic Building as defined in BS EN ISO" ++ Building services are required for heating, ventilation, cooling and lighting of non-domestic buildings. The service points in the scheme are combined into two functional areas; the Internal environment of the building and the service points of the External environment of the building. ++ The section on building services covers in general, the commissioning of services, installation, construction and maintenance of all equipment and systems required for the provision of heating, ventilation, cooling and lighting. This includes: commissioning, design, specification, construction, maintenance and validation. ++ At the end of this Guide, is given a contact address for both the Architects Registration Board of Ireland and the Building Control Authority of Ireland. The EN standards were developed in conjunction with CIBSE (The Chartered Institute of Building Services Engineers) and it is CIBSE's view that the standards should be available free online. + *BS EN ISO 2009:2007: D16.2010 Building services.
